

MARK ASIMWE

FULL-STACK WEB DEVELOPER

asmarka@outlook.com | [GitHub](#) | [LinkedIn](#) | [Twitter](#) | [Portfolio](#)

SUMMARY

Proactive and collaborative Full-Stack Developer with strong foundations in JavaScript, React, and Node.js, and a diploma in Computer Science. Completed rigorous remote training at Microverse, where I mastered real-world development workflows including agile collaboration, pair programming, and code review. Proven ability to build responsive, user-centric web applications and solve problems independently. Eager to contribute to high-impact projects that improve digital experiences and business outcomes.

SKILLS

Front-End: React, JavaScript, Redux, HTML5, CSS3, TailwindCSS

Back-End: Node.js, Express.js, MongoDB, MySQL, Sanity CMS

Tools & Methods: Git, GitHub, Netlify, Vercel, API Integration, Figma, Responsive Design, Remote Collaboration

PROJECTS

May, 2023 – Present

ASMA Blog — [Live](#) | [GitHub](#)

- Developed and deployed a full-stack blog platform enabling user sign-up/login, content creation and management, search functionality, and profile updates.
- **Tech Stack:** React, Express, MongoDB, TailwindCSS.

Living Seed Academy — [Live](#) | [GitHub](#)

A school website built with React, TailwindCSS, and Sanity CMS.

Twau-Africa — [Live](#) | [GitHub](#)

- I developed a fully responsive and user-friendly e-commerce website for Twau Africa, a clothing brand that needed an online storefront to showcase and sell their products. The goal was to create a clean and intuitive shopping experience that could easily be updated by the brand's staff through a CMS

LinkWarden — [Live](#) | [GitHub](#)

- A desktop bookmarking web app designed from a Figma layout. Built with React and TailwindCSS.

Graphics Landing Page — [Live](#) | [GitHub](#)

- A desktop-focused landing page built for a graphics company using React and TailwindCSS.

FAQs Page — [Live](#) | [GitHub](#)

- A responsive FAQ page built from a Frontend Mentor challenge using React and TailwindCSS.

Todo List App — [Live](#) | [GitHub](#)

- Task manager with CRUD functionality. Built using React and TailwindCSS.

EXPERIENCE

Freelance Web Developer — Remote

2024 – Present

- Designed and developed responsive websites for individuals and small businesses, improving user engagement and satisfaction by providing tailored solutions using React and TailwindCSS.

Microverse — Remote

May 2023 – October 2023

- Collaborated on projects using React and JavaScript in a fully remote environment. Participated in pair programming, code reviews, and agile workflow.

Web Development Intern, BlueStreams

April 2022 – June 2022

- Developed and optimized web projects using WordPress and JavaScript, enhancing user engagement and project delivery efficiency for client requirements.

Team Member, KFC Uganda

January 2019 – October 2021

- Gained strong communication, problem-solving, and teamwork skills in a high-pressure customer service environment.

EDUCATION

Microverse (Remote)

Full Stack Web Development Program — May 2023 – October 2023

- Collaborated on multiple projects using React, Redux, JavaScript, HTML, and CSS in a remote team environment.
- Participated in daily stand-ups, GitHub-based code reviews, and remote pair programming.
- Mentored new students, providing guidance and support.

CAVENDISH UNIVERSITY UGANDA | Diploma in Computer Science and Information Technology, Full Time | March 2021 - August 2023

- Wrote a project proposal for an online blood donor and receiver tracking system.
- Received a Certificate of completion for my Diploma where I passed with a first Class honor.

ALX Africa (Incomplete)

Software Engineering Program — 2022

- Completed foundational modules in software engineering, including shell scripting, C programming, Git/GitHub, and collaborative workflow.
- Practiced self-paced learning and problem solving through real-world coding challenges and peer collaboration.
